ORIGINFX

FX FOUNDATION

# OriginFX

User interface design. 45 screens in Dark and Light.

Open source · GPL-3.0

PART 1

# Dark mode

The default theme.

SECTION A

# Start and learn

Section A · 8 screens

ORIGINFX

# Make something worth watching.

Free, open source, and private. Everything stays on your computer, and nobody needs to ask permission to edit.

Open source under GPL-3.0 by FX Foundation

Step 1 of 3

## Choose your workspace

Select the layout that fits your experience. You can change it at any time from the editor toolbar.

**Simple** Recommended

A focused workspace with essential tools and in-context guidance. Best for getting started.

**Guided**

The core toolset with optional guidance. For editors who know the fundamentals.

**Pro**

The complete workspace: multi-track timeline, node compositing, graph editor, and full keyboard control.

Look

ORIGINFX

# Start a new project

Pick a starting point. It sets up the right size and the right lanes for you.

**Blank project** — Any size
Start empty. Add what you want.
Comes with: nothing, you build it

**YouTube video** — 16:9
Landscape video for the web.
Comes with: video, title, and music lanes

**Reel or Short** — 9:16
Tall video for phones.
Comes with: video, captions, and music lanes

**Short film** — 2.39:1
Wide cinema frame.
Comes with: video, sound, and music lanes

**Documentary** — 16:9
Interviews and cutaways.
Comes with: interview, cutaway, and voice lanes

**Square post** — 1:1
Fits any feed.
Comes with: video, title, and music lanes

# Learn by doing

Every lesson runs inside the real editor. You edit, and we point the way.

Your progress 1 of 6 levels

Your path

- ✓ Basics — 3 lessons
- 2 Cutting — 4 lessons
- 3 Sound — 4 lessons
- 4 Look and color — 5 lessons
- 5 Titles and motion — 4 lessons
- 6 Pro tricks — 6 lessons

Level 2: Cutting

## Lesson 3: Cut your first clip

Learn to trim the start and end of a clip, then split it in two. About 5 minutes in Simple mode.

▷ Start lesson | Watch first

## Quick tricks

2 minutes each

### Remove the quiet gaps

Cut silences in one click.

### Add captions

Words on screen, automatically.

### Steady shaky video

Smooth out handheld footage.

### Make it vertical

Reframe for phones.

TRANSCRIPT

00:00:01 Welcome, and thank you for joining us.

00:00:04 Today we are walking the coastline.

00:00:08 The light here changes every hour.

00:00:12 We will start at the harbor.

00:00:15 Then head north along the cliffs.

00:00:19 Keep an eye out for the lighthouse.

# Make something worth watching.

Free, open source, and private. Everything stays on your computer, and nobody needs to ask permission to edit.

Open source under GPL-3.0 by FX Foundation

Step 1 of 3

## How do you want to start?

Pick what feels right. You can switch any time with the toggle at the top of the editor.

**Simple** Recommended
I'm new. Big buttons, plain words, and hints that show me the next step.

**Guided**
I know the basics. Show me more tools, keep the hints.

**Pro**
Show me everything. Full timeline, nodes, graph editor, and keyboard control.

Continue learning

**Lesson 3: Cut your first clip**

5 minutes. Runs inside the real editor.

Resume lesson

Quick tip

Press and hold the space bar to preview any clip without leaving the timeline.

ORIGINFX

# Start a new project

Pick a starting point. It sets up the right size and the right lanes for you.

**Blank project** Any size

Start empty. Add what you want.

Comes with: nothing, you build it

**YouTube video** 16:9

Landscape video for the web.

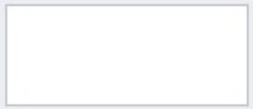

Comes with: video, title, and music lanes

**Reel or Short** 9:16

Tall video for phones.

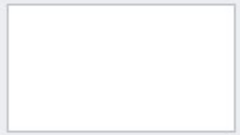

Comes with: video, captions, and music lanes

**Short film** 2.39:1

Wide cinema frame.

Comes with: video, sound, and music lanes

**Documentary** 16:9

Interviews and cutaways.

Comes with: interview, cutaway, and voice lanes

**Square post** 1:1

Fits any feed.

Comes with: video, title, and music lanes

# Learn by doing

Every lesson runs inside the real editor. You edit, and we point the way.

Your progress 1 of 6 levels

Your path

- ✓ Basics — 3 lessons
- 2 Cutting — 4 lessons
- 3 Sound — 4 lessons
- 4 Look and color — 5 lessons
- 5 Titles and motion — 4 lessons
- 6 Pro tricks — 6 lessons

Level 2: Cutting

## Lesson 3: Cut your first clip

Learn to trim the start and end of a clip, then split it in two. About 5 minutes in Simple mode.

Start lesson | Watch first

## Quick tricks

2 minutes each

### Remove the quiet gaps

Cut silences in one click.

### Add captions

Words on screen, automatically.

### Steady shaky video

Smooth out handheld footage.

### Make it vertical

Reframe for phones.

ORIGINFX

Running smoothly

# Library

Titles, transitions, effects, and sounds. Drag any of them onto your timeline.

Search the library

All | Titles | Transitions | Effects | Music | Sound effects | Overlays | Templates

| | | | |
|---|---|---|---|
| Title style 1 — Title | Title style 2 — Title | Lower third 1 — Title | Cross dissolve — Transition |
| Dip to black — Transition | Glow — Effect | Film grain — Effect | Track 1 — Music |
| Track 2 — Music | Whoosh — Sound effect | Applause — Sound effect | Light leak — Overlay |

## Title style 1

Title

A clean, centered title that fades in. Change the words, the font, and the timing after you add it.

| | |
|---|---|
| Length | 5 seconds |
| Works on | Any clip |
| Looks like | Cinematic |

+ Add to project

☆ Save to favorites

General
Picture
Sound
Color
Speed and storage

# Picture

These control how your finished video looks. Most people never change them.

**Picture size**
How sharp your video is. Full HD works everywhere.

720p | 1080p | 4K | Custom

**Smoothness**
Frames per second. 30 looks natural, 60 looks extra smooth.

24 | 30 | 60

**Shape**
The frame's proportions. Pick the one for where it will play.

16:9 | 9:16 | 1:1 | 21:9

**Color style**
Standard works on every screen. HDR needs a compatible display.

Standard | HDR | Cinema

What you get

**1920 × 1080, 30 frames per second**

Good for YouTube, websites, and most screens. Files stay a sensible size.

TRANSCRIPT

00:00:01 Welcome, and thank you for joining us.

00:00:04 Today we are walking the coastline.

00:00:08 The light here changes every hour.

00:00:12 We will start at the harbor.

00:00:15 Then head north along the cliffs.

00:00:19 Keep an eye out for the lighthouse.
